On Behalf Of:
Committee: House Committee On Education
Measure, Appointment or Topic: HB3444
House Committee On Education
Oregon State Senate
900 Court St. NE
Salem, Oregon 97301

Dear Chair Neron, Vice-Chairs Dobson and McIntire, and members of the Committee:

As a parent of an Oregon public charter school student, I am writing today in support of House Bill 3444. HB 3444 will fix a deep disparity currently happening in Oregon schools: that Oregon public charter school students are essentially funded at 48 cents on the dollar compared to district students. Public charter school students are public school students, and it's past time to fund their education fairly.

Almost every public charter school parent has a story as to why a public charter school became the right fit for their child and their family. Many families are put in the awful position of having to choose between the educational services and experience their child needs that only a public charter school provides, at the expense of other services that the state funds at traditional public schools, like transportation support, food security programs and more.

Many parents, such as myself, want an exceptional education for their children, however, can not afford a private school. We realize that we could not afford private school for our children and decided to enroll our child in one of our district's charter schools. We could not be more thrilled with her educational progress. Our daughter is excelling at school and learning another language. This would not be possible had she gone to our neighborhood public school. We feel her current charter school provides an amazing education and are so thankful we have this opportunity for our child. Her school, as well as other charters in the state, deserve to be funded in the same manner as other public schools.

Unfortunately, because of Oregon's current school funding model, public charter schools are significantly underfunded. Many buildings are old and in need of upgrades or are not designed to promote learning as they are repurposed buildings; students can't access transportation services; food security programs are limited; and schools lack essential school supplies and mental health resources. By supporting HB 3444, you are standing up for the rights of all public school students—regardless of the type of school they attend. I respectfully ask you to vote in favor of this bill and

work to ensure that charter school students are treated fairly under Oregon's education system. You can fix this ongoing disparity and provide fair funding for public charter school students who deeply need it.

Please vote yes on HB 3444.

Thank you,

Angela Saini
