

Submitter: Danny Johnson
On Behalf Of: EOMA
Committee: House Committee On Labor and Workplace Standards
Measure, Appointment or Topic: HB2548

HB 2548 is an additional interference to the relationships of employers and employees. Eastern Oregon ranchers and their employees as well as the mining community have a generally mutual understanding of work ethic and what needs to be done to make both employer and employees successful.

At Will Employment is necessary due to the fact that there are too many distractions to business in today's Oregon atmosphere. There are too many individuals under the influence of drugs and alcohol, which means that employers must protect themselves from exposure to additional liability or business damage.

Oregon's business community does not need more oversight by governmental agencies. Free enterprise entities are supposed to be just that with few if any rules or regulations to deter the few bad players of our society.
