

Submitter: Thomas Busse

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB315

When I lived in San Francisco, that evil hag Kamala Harris would prosecute black families for having their children out of school.

It wasn't about education or black success. It was all about the fact that local school districts got state money based on attendance due to Prop 98.

Compulsory education laws are all about abusing the public's gullibility to create pretext to create kickbacks to crony contractors who fund the corrupt sponsors of this bill.

Oregon Democrats don't care about the education of Oregon's children. They just care about their own checkbook.
