Measure, Appointment or Topic: HB3444

As a teacher at a charter school, I wholeheartedly support HB 3444 because it ensures equitable funding for all public charter schools in Oregon. Our students deserve access to the same resources as their peers in traditional public schools, and this bill would provide essential funding to enhance educational opportunities, transportation, and support services. Charter schools play a vital role in offering innovative and student-centered learning environments, and increasing the State School Fund pass-through to 95% will allow us to better serve our students. I urge legislators to pass HB 3444 and give public charter school students the fair funding they deserve!
