

Submitter: Tom Buchholz
On Behalf Of:
Committee: House Committee On Labor and Workplace Standards
Measure, Appointment or Topic: HB2548

My name is Tom Buchholz and I grow specialty seed crops, grass seed, corn, wheat on about 300 acres in Mount Angel. I primarily use seasonal local youth labor as it is important to me to provide opportunities for local kids to learn how to farm and keep them involved in agriculture.

Please oppose HB 2548. This is a very negative bill for farm employers. This bill has the potential to cripple family farms due to prohibitive costs associated with labor costs and increased exposure to litigation. If farmers cannot afford labor and regulations, we will have to turn to strictly mechanized farming, which will change our beautifully diverse state into mono-crop farms owned exclusively by large corporations. Our family farms will disappear, and so will the variety of specialty crops that Oregon agriculture is known for.

Oregon already has some of the highest labor cost in the country. Farmers generally don't get to set prices for their commodities, so there is no way to recover the increased cost passed by the new governing Board. Farm workers are currently protected by very strong workplace regulations such as paid sick time and minimum wage. Oregon OSHA has one of the highest worksite inspection rates and has adopted some of the most expansive workplace protections in the country. What real issue is this bill trying to solve?

HB 2548 gives unelected bureaucrats the power to set wages and safety rules that go far beyond current protections, adding more regulatory and cost burden to farms. There is no accountability for the decisions they make, even if their decisions ultimately close farms or result in layoffs.

I am strongly opposed to the proposal in HB 2548 that eliminates at-will employment for farms and ranches. HB 2548 carves out farms and puts us at risk for costly claims for making necessary staffing decisions. All other private sectors in Oregon enjoy at-will status, but farms—whose employment needs are impacted by weather, yields, trade and market conditions, pests and diseases—would not. This is unfair. This bill doesn't help workers or consumers; it just makes farming harder and more expensive. I have already had to reduce worker hours, change crops, or automate to control labor costs associated with overtime; HB 2548 would have more severe consequences.

I urge you to vote no on HB 2548 to protect Oregon farms and ranches and the jobs we currently provide.

Sincerely,
Tom Buchholz
