Dear Chair Neron, Vice-Chairs Dobson and McIntire, and members of the Committee:

As a parent of an Oregon public charter school student, I am writing today in support of House Bill 3444. HB 3444 will fix a deep disparity currently happening in Oregon schools: that Oregon public charter school students are essentially funded at 48 cents on the dollar compared to district students. Public charter school students are public school students, and it's past time to fund their education fairly.

Almost every public charter school parent has a story as to why a public charter school became the right fit for their child. Many started out in traditional public schools, but couldn't receive the education they deserved, often due to learning challenges that required specialized attention beyond what a public school classroom could provide, or physical, developmental, or mental health challenges that public schools simply couldn't, or wouldn't, accommodate for.

Two of my children required specialized learning options that were not available in their local public school. A nearby charter school, LOGOS Public Charter School, had learning options that provided the educational environment my children could thrive in. Having many learning environments available where children can thrive should be the goal of every state and local leader. Fully funding these alternative options should be a priority for our children.

Unfortunately, because of Oregon's current school funding model, public charter schools are significantly underfunded. Many buildings are old and in need of upgrades, students can't access transportation services, food security programs are limited, and schools lack essential school supplies and mental health resources. By passing HB 3444, you can fix this ongoing disparity and provide fair funding for public charter school students who deeply need it.

Please vote yes on HB 3444.

Thank you,

Jenny Cornelius
