Measure, Appointment or Topic: HB3444
House Committee On Education
Oregon State Senate
900 Court St. NE
Salem, Oregon 97301

Dear Chair Neron, Vice-Chairs Dobson and McIntire, and members of the Committee:

As an Oregon public charter school student, I am writing today in support of House Bill 3444. HB 3444 will fix a deep injustice currently happening in Oregon schools: that Oregon public charter school students are effectively funded at 48 cents on the dollar compared to district students. Students at Ridgeline Montessori Charter School are public school students, and it's past time to fund our education fairly.

Each student here at Ridgeline Montessori Public Charter School has a story about why this school has made a positive difference in their life. Many started out in traditional public schools, but couldn't receive the education they deserved, often due to learning challenges that required specialized attention beyond what a public school classroom could provide, or physical, developmental, or mental health challenges that public schools simply couldn't, or wouldn't, accommodate.

Ridgeline is special to me because it allows me to connect with my friends and peers on a deeper level than if I were at a district school. I have been here since kindergarten and have had a lot of fun especially in middle school. My favorite classes are ELA and SW because I like to read and write. Math and science are very hard but my teachers help me understand those subjects.

Unfortunately, because of Oregon's current school funding model, public charter schools are significantly underfunded. This directly impacts me as a student. Many buildings are old and in need of upgrades, students can't access transportation services, food security programs are limited, and schools lack essential school supplies and mental health resources. By passing HB 3444, you can fix this ongoing disparity and provide fair funding for public charter school students who deeply need it.

Please vote yes on HB 3444.

Sincerely, Lark
