Dear Chairman Nosse and Members of the House Committee on Behavioral Health and Health Care:

My name is Catherine Crew and I am a psychologist in the Portland metro area of Oregon practicing independently for the past 9 years.

I am writing this letter in support of HB2029. Insurance audits are abusive, unfair, and limit access to care to the people of Oregon. Please help stop this practice. Insurance audits hinder our ability to provide individualized treatment to patients, which is the cornerstone of our profession.

Thank you for supporting this bill.

Sincerely,

Catherine Crew PsyD
