

Submitter: January Stephens
On Behalf Of: All farm workers and field workers
Committee: House Committee On Labor and Workplace Standards
Measure, Appointment or Topic: HB2548

Im here to help with farm worker and field workers, these people are very important roll to everyone that eats in America!! These workers go out in the rain, sleet, snow, hail, and the most important is the heat!! These workers are the ones that put fruits and veggies on everyone's table!! Not just regular food but also your organic foods. These workers need better pay, health insurance, and breaks from the cold wet and heat.. These people are the most hard working individuals that work in our world... they need to be treated better and payed better.. for example these workers will go out and pick your blueberries for 20cents per pound and the store charges the people on sale 2.99 per 8 oz.. these people pick hundreds of pound for a wade that might pay rent. Fair labor for all people Americans or not.. they should have a fair wage. Not 20 cents per pound... for a days work of picking blueberries if you are lucky might be 100.00 if you are a top picker.. make it fair..
