Committee: House Committee On Economic Development, Small
Business, and Trade

Measure, Appointment or Topic: HB2527

The wastewater project is key to the future of the Union County Oregon Fairgrounds. These fairgrounds are a vital part of the city of La Grande and the community in and around Union County. I grew up in La Grande, and have come back many times to the fair, or to the fairgrounds for other community gatherings. I am also a vendor at the Union County Fair. We need to support our small town venues in a way that keeps our community together, and part of that includes having common venues to gather for events or special occasions. Please support this project. For the first time in a long while we have strong leadership on our fair board and a massive community backing. We need this now and for the future of our fairgrounds, and our small town way of life.

Thank you,
Diana Burback
