Topic: HB2548

I strongly OPPOSE this bill and request you to STOP this bill and vote NO!

Our family farm owners work very long hours, pay high prices for fertilizers, animal food, seeds, water, equipment, and labor just to begin with. If you have forgotten, the last legislative session added more employment burdens to our farmers. You continually add more and more bureaucratic regulations to our farmers that are already struggling. If you keep this up, you will have the family farm death on your hands! We will no longer have a healthy food supply from our local communities.

Think about the quality food you eat: fresh fruit, fresh vegetables, beef, chicken, eggs, and milk to name a few.

I am very aware how hard it is for farmers as I've worked for two farmers and know only some of their financial struggles.

I urge you to walk away from this bill! Dump it!  
Please don't allow this to happen in our state!

I begin to wonder if another group is behind this that will line your pockets when their large corporations come in and buy up struggling farms!
