

Submitter: Dianna Lamb  
On Behalf Of: Seniors  
Committee: Senate Committee On Health Care  
Measure, Appointment or Topic: SB1030

I object because this is an unnecessary overreach of government authority. Seniors are not always informed about drugs that are being peddled on them although it is great for the pharma co. What does our government get out of the deal? The facility is forced to do your bidding. Kind of like putting "health care" facilities in school. No thank you. I oppose.
