Measure, Appointment or Topic: HB2548

Greetings:

There seems to be a large misunderstanding regarding the agricultural community. Those who work on the land, dairy, poultry, crops know that there is not enough time in a day to finish all the work needed to be successful, but somehow there is an attitude that there is an hourly production rate that can be valued.

The authors of this measure think that ag business is a 9-5 occupation that includes rest and lunch breaks and these need to be applied. They are wrong.

Thank you
