

Submitter: Emily Corson
On Behalf Of: Parents of Charter Schools
Committee: House Committee On Education
Measure, Appointment or Topic: HB3444

I am a parent with three children in a Public charter school. We work diligently on a weekly basis to try and raise funds for our school to continue in a healthy and supportive manner for the children of this community. We were on a waitlist for four years to get into the school so these options are in high demand. The classes are very large with only one teacher needing more support. Parents volunteer as much as possible but it never seems to be quite enough. Public charter schools are invaluable to the communities of Southern Oregon. We need your support today.! Thank you!
