

Submitter: Rachel Browning

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB1086

Restore Oregon is committed to working on policy and legislation that overall supports the entire ecosystem of professionals needed to preserve and reuse our existing built environment. This has been identified as a long-term problem similar to not having enough skills and training for careers in construction trades that everyone needs to maintain and protect their homes and properties. We support SB 1086.
