Measure, Appointment or Topic: HB2548

Once again, our legislature is wasting their time adding more regulations to the agricultural community. There are already many safety regulations in place including OSHA. Why make tougher regulations for farmers and ranchers than for other businesses?? Everyone loves their food, but more farmers and ranchers are retiring and selling their properties due to the onerous regulations of this state! Also, Oregon is an at will state! It is an 'employee market'! Employers are not going to get rid of employees that are doing their jobs! This seems like a total overreach! NO on HB 2548!
