

Submitter: Kyla Fussell

On Behalf Of:

Committee: Senate Committee On Early Childhood and Behavioral Health

Measure, Appointment or Topic: SB527

I believe the bill 527 will be extremely beneficial to our community, as a high school student, and seeing the support that kids, adolescents, and adults need, I believe that this bill will create not only a better community but also help people have better lives. As part of the behavioral health program at CTEC the training that me and my fellow peers have been able to get has been amazing and with these skills that we have learned we are able to give back to our community and with it there has been outstanding results.
