Measure, Appointment or Topic: HB2548

As a small agricultural business owner in Oregon, I am opposed to HB2548 as it will only add redundancies to an area of our small businesses that are already well covered by our current state employment laws. The proposed HB2548 would add unnecessary burdens to small businesses that are already struggling to survive. These small agricultural businesses are the lifeblood of our local food production in Oregon, and losing them would only hurt the small farm employees that depend on these small businesses for their livelihoods. The proposed HB2548 is also proposing to eliminate at-will employment in agriculture which would put our animals and other employees at risk. Please help our agriculture employees, our animals, and our small farm businesses by opposing HB2548.
