

Submitter: Lilith Gist

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB681

By enacting this legislation, our state of Oregon can lead the nation in putting our money where our mouth is: saving the planet. Many people turn a blind eye to climate change, and refuse to believe human activity (fossil fuels, over-fishing, over logging, not saving our heritage forests) is causing our precious and ONLY planet to begin to die. It's a criminal, toxic and lethal blindness that disregards the SCIENTIFIC DATA which DOES NOT LIE showing what we've been doing is causing great harm. INVEST IN DIVERSITY, NOT TOXICITY

By investing in non-fossil fuels for the future, we guarantee a livable future for OUR CHILDREN and THEIR CHILDREN, the plants and animals of Earth.

This BLOOD LUST to kill our trees for jobs is devastating forest habitat and watersheds.

I STRONGLY URGE the Oregon Legislature to PASS THIS BILL!
