I am a current member of Oxford House Onyx Street II in Bend.

I am opposed to to HB 2239

Oxford House Incorporated certification process and standards should be equal to the NARR certification.

I strongly believe that without Oxford House, and the democratic self supporting model.

I would never have gotten into recovery and stayed. Oxford House and the support of other members in my house and other houses has changed my life and helped me to

learn to live a new way of life and the lives of so many others across the state of

Oregon.

Thank you for your time
