Measure, Appointment or Topic: HB2385

I strongly oppose the unintended consequences and negative effects on the 340B program contained in HB2385 especially on undeserved populations that were the original intended recipients of the 340B program. Some eligible entities that utilize the program use the profits to expand services as intended, while others appear to only use the profit to enhance the bottom line, perhaps at the expense of the undeserved populations is intended to help. We don't really know because there is a need for transparency in the oversight of this program which is not included in HB2385. I urge a no vote.

Respectfully,  
Rep. Jeff Kropf (Ret)
