

My name is Forrest Ortega and I am a current resident of the Mount bachelor II Oxford House in Redmond Oregon. I I'm also an alumni of the Jnoonan Oxford House in Springfield Oregon. I am against House Bill 2239. I believe that the OHI should be on the same level as the Narrs certification. Oxford is an established part of the recovery community for the last 50 years with proven success and its Democratic process and ability to allow residents the opportunity for growth and dependability upon other recovering individuals. It is crucial that there be options for us as recovering addicts and alcoholics to ensure a greater amount of success and sobriety. My email is forrestortega73@gmail.com.
