Parkrose Oxford House
11122 NE Wygant St
Portland Oregon 97220

I am a current resident going on two years now, I also have sole custody of my two year old daughter with me

I am opposed to bill HB 2239

The certification process and standards of Oxford House Incorporated should be held on equal footing as the NARR certification.

I think the Oxford House standards go above and beyond what is expected in a functional household in so many ways: from the organization and support structure, weekly house meetings and overall accountability, cleanliness and unity in recovery; I have seen a lot of people get better and develop life skills here, and I think this is generally a better way to live for any person who wants a stable, sober environment to come home to or quality of living where they can have a role in helping others

I wish I had known about Oxford House sooner

God bless everyone!!

Sincerely yours,

Gary Green
