HB3075

This is a attack on the constitutional rights of Oregonians. Not only has this been brought into effect with bad planning and now system provided with a sustainable and successful outcome, but this will be a burden to taxpayers to establish a plug-in play program that could be more of a fiduciary burden than the Government of Oregon understands. While I do believe that red flag laws and 1 week waiting periods for firearm purchases could be another option this is a rushed proposal that has no healthy outcome for justices of Oregon. with law-enforcement agencies already being tied up with other crimes within the area. This also provides an opportunity for criminal organizations and criminals to profit off of this opportunity.
