

Submitter: Anthony Tarnasky

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This is a terrible law that deserves to be handled through the courts. Even if you believe in the premise (I do not), implementing it is so full of holes, time is needed to establish proper rules, processes, and procedures.

If the process for application is not defined, it is a de facto ban which would only harm proponents claim of constitutional adherence.
