Committee: House Committee On Education

Measure, Appointment or Topic: HB3444

All public school students in Oregon deserve the same investment in their education, whether attending a public charter school or public district-run school.

Right now students in public charter schools receive 48% of the funding that their peers in district-run school receive.

Our state's founding and now outdated charter school legislation is not in line with our state's current priorities. It restricts funding for early education and intervention, as well as investment in our historically underserved communities.
