On Behalf Of: 94.30
Committee: House Committee On Labor and Workplace Standards
Measure, Appointment or Topic: HB2548

HB 3548 is a terrible measure that puts another nail in the coffin of small family farms. We star farming our place in January 1974. Im all those years there hasn't been a year that we did not have to be very careful with finances. Unpredictable weather, low prices and increasing costs.we are the last to be paid.Mergers of Bigfood corporations , a legislature that little to no understanding of the difficulties of farming and thinks there new regulations improve things. Small special crops are dead in the water labor help. We do everything we can to make them more productive and want them to come back year after year. We are not acommodity, the whole family works alongside our employees and hours beyond.

More regulation from the state will kill us just like the Trump tariffs will. Please, no on hb3548
