I strongly oppose this bill. As a responsible gun owner and concealed carry holder, this bill obstructs my constitutional right to bear my firearm which is totally un-altered and will remain so. I feel this bill will give an unfair and dangerous advantage to criminals with guns. Please remove this bill from the docket. Not doing so will make you responsible for the loss of life of innocent law abiding people because you took away their way of defending their self. I can't even describe how terrible this bill is.
