Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

Both these measures 3075 and 114 are an affront to the people of Oregon my family has lived here since before this was a state we arrived here in 1852. Now we are looking at other states to move to as these bills make citizens into slaves. The fear that is sold in the city's Portland, Salem, Eugene/Springfield is ruining our state. No gun control measure has ever prevented an evil person from harming others cars, baseball, bats, knives and more. All you are doing is preventing citizens from protecting themselves and others around them. This is a fact as the FBI estimates that 300,000 to 1.5 million times a year firearms in unreported defensive actions. Vs the 300-600 (less than .02 %) of times or less guns are used incorrectly by an evil person to harm others. These numbers are for guns only not related to gang incidence and or self harm. Consider carefully how you vote on 3075 and consider how you can remove the unconstitutional 114. The ignorance of the appeals court is evident in their ignoring all relevant data about the constitutionality of this bill.
