

3/15/25

Regarding:

h, [House Bill 3076](#), the gun dealer licensing bill, will be heard in the same committee. This bill will impose significant restrictions and penalties on lawful and already highly regulated Federal Firearms License businesses.

Regarding this proposed bill:

1. The Bill is not needed. There are already restrictions and severe penalties for **any** gun dealer who intentionally or accidentally violates **any** existing law regarding the sale, transfer, holding, storing, having, etc **any** firearm in the State of Oregon. Further, sponsors of Bill 3076 are forgetting a simple thing – Any business person wants to obey existing laws so that they can stay in business, unpenalized. They don't want to lose their licenses. Leave the working system alone.
2. Ballot Measure 114 barely passed a few years back (some say it did not pass). It has been challenged by Patriots who believe in Liberty, Freedom and the Right to Bear Arms to defend our lives and homes and way of life. The measure has been ruled “unconstitutional” – this means a group of self serving and/or special interest serving government and judicial officials should not mess with it. 114 VIOLATES BOTH FEDERAL AND OREGON STATE CONSTITUTIONS. Stop messing with 114 and anything related to 114.
3. It is a fact that gun control does not decrease crime. Only those with their heads in the sand don't know this. It is very obvious that those who waste tax payer \$ trying to make more regulations to dump on law abiding citizens (gun dealers in this case) are really pushing another agenda. I firmly believe that those who back this sort of unconstitutional malarky should pick up their bags and move to another country where there are lots of regulations restricting Liberty and Freedom. Since they don't like it here (in Oregon or America – the way it is) – LEAVE!. Stop messing with our rights as American/Oregon Citizens.
