Measure, Appointment or Topic: HB3075

Measure 114 is an abomination. Citizen's of the United States are slowly giving their freedom and amendment rights away. The government is corrupt this day in age. The only possible reason for regulating gun rights are for the mentally ill and people with multiple convictions. No law abiding citizen should have to take a class or buy a permit to purchase a firearm. Multiple background checks are absurd with no added benefit. Citizen's shouldn't have to be bothered with fighting for the rights we have had since the constitution was written. I strongly disapprove of measure 114!
