SB 681 makes a LOT of sense. Oregon needs to catch up to other states and countless universities that are divesting from fossil fuels. Five years is enough time to see a real difference from this moratorium and then decide how to proceed. I think you'll be proud of this action, because it says you're paying attention to what's happening to our planet and you care. If you wait any longer, you'll be forced into reacting instead of being proactive. This is a no brainer. Just do it!
Thank you.
