

Submitter: Linda Kelley
On Behalf Of: 350 Eugene
Committee: House Committee On Climate, Energy, and
Environment
Measure, Appointment or Topic: HB2067

We strongly support HB 2067. Gas leaf blowers are very polluting. Research shows that running one leaf blower for an hour is equivalent to a gas road trip from Seattle to San Diego.

This bill will protect both our environment and also the people who work in landscaping and are subject to the health risk of inhaling fumes. I see very few of them wearing facial protection. Please pass this positive bill to enable a cleaner, healthier, and quieter environment.
