

Submitter: Nic Westendorf

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2963

I am writing in support of HB2963, which would help reduce transportation costs for Oregonians and support safer and healthier communities. Transportation costs are a major burden on households and offering support for lower cost, more sustainable options is a net positive for everyone. Transportation is also a major source of emissions and pollution. Helping increase access to e-bike is a great way to help reduce financial burden on households while helping address our climate issues. This program is a lot of bang for its buck and feels like an easy win. I appreciate your time and consideration on this matter.
