Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or Topic: HB3871

I support this for the animals and the Local rescue groups.

We desperately need more affordable local community spay, neuter, vaccine services including feral and community cat support for TNR (trap neuter return) programs, including support for the housing and rehoming.

The Local established community TNR/rescue organizations, have worked so hard, often from their personal resources, for our communities. They assist animals and owners in every way possible and are the ones who know what is needed and where funds would be most effective. Please do not exclude these small local organizations in your planning, they will be critical to the programs success. Best of luck. Jannee
