

Submitter:

Linds Tallon

On Behalf Of:

Committee:

Joint Committee On Transportation

Measure, Appointment or Topic:

HB3626

I purchased an ebike 1.5 years ago and it has replaced 90% of my driving within Portland, including transport to groceries and errands, taking my child to school, and taking myself to work. We need less cars on the road for long-term environmental protection and for the short-term benefits for people's health and well-being, so please support this.
