

Submitter: Jennifer Sutter

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB681

This legislation just seems like an obvious step in our efforts to stop funding activities that harm the environment and contribute to climate change. It's actually sad that we have to have legislation to do this but apparently that is the case. As a PERS member I am especially appalled that my retirement is dependent on earnings from companies that are contributing to the climate effects we have all experienced - fires, heat, drought. Please make sure this small step is taken to reduce our support of companies that need to go out of business.
