

Submitter: J. Michael Schultz

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB681

I want to convey my support for SB681. We are seeing the rapid roll back of climate change protections at the national level and policy initiatives that further erode such protections. Action at the state level is where we can still make an impact on fighting climate change. By not investing state revenue into funds that support the fossil fuel industry we can make a difference during this challenging time. It makes no sense to be using our state financial resources to aid the continued utilization of fossil fuel endeavors. Thank you for your consideration of my testimony.
