

Submitter: Jon Wexler

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Chair Kropf, Vice Chairs, and members of the Judiciary Committee:

Please accept my testimony in support of HB 3075 - an important bill to implement the measures that the majority of voters supported in 2022 to protect Oregonians from gun violence. As you are aware, there are legislative fixes needed to best implement the will of the voters. I appreciate that the court process had to be completed, but now that the Court of Appeals has ruled that Measure 114 does not violate the Oregon Constitution, we are finally at a place where we can start the life-saving measures the majority of us supported. The efforts of all who are working to implement this measure are appreciated. Thank you for taking swift action.

Jon Wexler
