

Submitter: Susan Rosenthal

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3626

Please support the legislation that will standardize rules and policies regarding e-bikes and electric scooters. These devices are important parts of our transportation environment. Developing formal regulations will assist riders, educators, and law enforcement officials. People will have an idea of how to conduct themselves, and an understanding of laws that pertain to scooters and e-bikes.
