

Submitter: Teresa Mueller

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB681

I am a retired person who will have a very small social security income and an even smaller pension from ten years on the public schools. I support The Pause Act (SB 681) because fossil fuels have desecrated our land and created the climate chaos that has brought us ferocious fires, fearsome floods and deadly heat and drought. Fossil fuels are part of a dying industry that, rather than changing with the times and current science trends, intends to take us all down with it. Putting money in that sector is a poor choice for those of us who depend on our investments and pensions and public funds to keep afloat.

Please pass SB 681 for both these reasons!
