

Submitter: Sarah Deumling

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB681

Members of the Committee,

I urge you to move SB 681 forward as an important, if small, step to help curb climate change which I am convinced is the greatest threat to a livable Oregon we face today. Without a livable planet/state all the other important issues we face won't matter. (What good is education if we don't have enough water to drink? or grow food?) We are being bankrupted by climate induced disasters, including diseases. and our life sustaining ecological infrastructure is is being destroyed faster than it can repair itself.

I urge you, in the name of my grandchildren and yours, to do all you can to pass SB 681.

Thank you.

Sincerely,

Sarah Deumling
