Measure, Appointment or Topic: SB681

I studied atmospheric science in college, worked at an atmospheric science lab as staff and I am very concerned about the use of fossil fuels contributing to climate change. We are already seeing wildfires, heat waves, more severe weather and flooding due to climate change. This pending legislation would stop new investments in fossil fuels. Please pass this sensible legislation.

I support the Pause Act - SB 681.

and I care how the Oregon PERS funds are invested. No NEW private investments in fossil fuels!
