On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Strongly oppose any additional restrictions on purchasing firearms. It is not the firearms that are causing the problems we are having with gun control. It is the mental health of State of Oregon that needs to be addressed. It is a sad fact that the nuclear family is no longer the norm where respect and people are taught to be responsible for their actions. The legislation should put any additional monies into mental health and family training. Besides criminals don't do paper work
