Dear Members of the Committee on Finance and Revenue,

I support the Pause Act - SB 681.

This act is a simple way to take a good step toward protecting the climate and protecting PERS funds. We have to make changes both for the sake of our investments, and the sake of the changing climate. This is a small one, but a good one.

Please show you care about what we the people care about - our investments, and our earth - both of which are our future.
