Oregon State Natural Resources Committee

RE: HB 3856

Dear Committee Members:

At a time when most Oregonians are struggling to keep their heads above water because of the last few years of inflation, how can you propose yet another tax? It's time to start to control spending at the state level and have tough ACCOUNTABILITY as to how that money is spent. Instead, it seems that you want to continue to force Oregonians to pay for the significant mismanagement of almost every area of Oregon Government. IE: ODOT, OHA, ODF, DOJ, DHS, Schools, Mental Health, Homeless Entities, Oregon Unemployment Agency. So many Oregon agencies that have been in the news for mismanagement, poor leadership, etc. etc.

NO ON HB3856 AND EVERY OTHER TAX BILL YOU WILL PROPOSE

Sincerely,

Robin Mirrasoul
