I oppose gun restrictions. They will not help with gun violence. They will not bring more peace. They are taking away our freedoms . Who are you to say the freedom To bare weapons is not ok but can kill innocent in the womb. This gun bill will take away from the responsible not take away from the criminals. The criminals almost In every case even the case of trumps assassin attemp was a criminal with guns not bought legally. Passing this bill only Hurts the good guys. Don't be dumb don't pass this bill.
