

Submitter: Timothy Reinhart-Mickle

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

It speaks it all in the US Constitution the right to bear arms shall not be infringed, this is the amendment attacked the most but it is the second needed the most right after the right to free speech. Instead of worrying about guns maybe worry about the fact that our cities are overrun with the homeless population. Leave our guns alone plain and simple!
