

Submitter: Kris Babas

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

To whom it may concern-

This measure is completely anti-second amendment. You're supposed to be working for the people of the state whereas if you look at a map it's essentially one little dot in Portland that voted for this and the rest of the state is completely against it. I don't know a single person that is for it. This will do nothing to prevent crime as everybody already knows bad people don't follow the law. I urge you to please reconsider this bill. It is going to hurt so many people.
