

Submitter: Henry Hickman

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Although I am not a gun owner myself I am tired of seeing good laws abiding citizens getting their rights taken away. You need to stop attacking them and use your energy to take care of th real problems we Oregonians are dealing with. Homeless population, poor public education outcomes. We have been under democratic control in this state and look where we are. Stop hounding the citizens of this state. You've ruined it enough already.
